Technology Solutions for Modern Agriculture
Trusted Partner since 2001

Cultivate Success in Agribusiness

Greenstone trusts Secur-Serv® to keep pace with evolving technology demands in agriculture, offer customized IT and cybersecurity solutions to their customers, and provide reliable phone and on-site service nationwide.

IT & Cloud Solutions

IT engineers will help architect and support a modern environment fueled by a future-focused technology and security-focused strategy. Keeping your agriculture software up and running on a modern, secure infrastructure is our number one goal.

From network and server management to cloud strategy, storage, backup and recovery, our engineers have you covered.

Cybersecurity Services

You'll get a custom solution — starting with a free security assessment. Our team dives deep to provide tactical security solutions, identifying risks and remediating vulnerabilities, keeping your data safe.

Working 24x7 to identify vulnerabilities and stop attacks before they hijack your systems. Partnering with you and your cyber insurance company to ensure you have the protection needed.

87%

of Agribusinesses lack a cybersecurity contingency plan

Exceptional Outcomes

Say goodbye to downtime and simplify vendor management with device repair and management on servers, workstations, printers and other equipment. With device management offloaded to a single provider, you can focus on core activities like improved yields and sustainable practices.

Streamlined Support

Our help desk, along with dedicated account management and skilled engineering staff, ensures all-around support for your organization. With over 3,000 technicians nationwide, we surpass expectations by delivering unexpected value and exceptional service, setting us apart from other providers.
